

SAURABH SONVANE

MERN Stack Developer | Frontend Engineer

Gangakhed, Maharashtra, India | +91 9588680004 | sonvanesaurabh7@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

MERN Stack and Frontend Developer with 1.5+ years of experience engineering scalable, production-ready web applications using React.js, Node.js, Express.js, and MongoDB-adjacent backend services. Proven track record delivering high-performance interfaces across government, healthcare, and gaming domains, integrating REST APIs, payment gateways, and mapping solutions, and optimizing SEO across 900+ dynamically generated pages. Proficient in core Python and actively building with modern AI tools and AI agent workflows to accelerate development and automation. Adept at cross-functional collaboration and delivering accessible, high-performing user experiences deployed on AWS.

TECHNICAL SKILLS

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Chakra UI, Next.js, Redux, Zustand

Backend / MERN: Node.js, Express.js, MongoDB, REST APIs, Core Python

AI Tools & Agents: ChatGPT, Claude, GitHub Copilot, Cursor, Prompt Engineering, AI-assisted development workflows

Integrations & APIs: React Leaflet, Cashfree Payment Gateway, Meta Pixel, Google Analytics

Tools & Platforms: Git, GitHub, Postman, Figma, WordPress, WIX, AWS

Methodologies: Agile, Data Structures & Algorithms (DSA), Cross-functional Collaboration

Soft Skills: Problem-Solving, Adaptability, Multi-tasking

WORK EXPERIENCE

Associate Software Engineer — Ajackus

Feb 2024 – Jul 2025

- Engineered scalable frontend architectures using React.js, Zustand, and Redux for high-impact platforms across government, healthcare, and gaming domains.
- Integrated advanced mapping, payment gateway, and API solutions including React Leaflet, Cashfree, and Django for dynamic, real-time user experiences.
- Optimized and redesigned large-scale web applications, increasing performance and SEO for sites exceeding 900 dynamically generated pages.
- Collaborated cross-functionally with design, content, and backend teams to deliver accessible, modern, and high-performing interfaces deployed on AWS.

PROJECTS

[MedicinePatentPool](#)

Platform used by pharmaceutical companies to coordinate with the WHO and manage licensing agreements. Developed core frontend components using React.js and added custom features to enhance user experience.

[GovernCRM](#)

Government-facing platform in the U.S. connecting 250M+ voters with government representatives, featuring maps and polling tools. Built the frontend from scratch, implementing key UI components and user workflows.

[TaskHub](#)

Full-stack MERN task management app (React + TypeScript, Node.js/Express, MongoDB) with JWT auth and refresh token rotation, Google/GitHub OAuth, role-based access control, and an admin analytics dashboard; deployed on Vercel and Render.

EDUCATION

[Full Stack Web Development](#)

Masai School, Bengaluru | August 2022 – June 2023

Bachelor of Engineering (Information Technology)

Sanjivani College of Engineering, Kopargaon | June 2017 – June 2022

ACHIEVEMENTS

- Published research paper in the International Journal of Modern Developments in Engineering and Science — "Agri Food Supply Chain Using Ethereum Smart Contract." [View paper](#)
